

Limited Scale Map

- 1** In communities such as Wildwood, due to longer blocks and different road patterns, there are few corner lots, and therefore fewer places that allow 3 or more unit developments.
- 2** Current zoning allows up to three storey buildings in all these communities. New semi-detached homes are allowed to be no larger than new single-detached homes.
- 3** The majority of areas with a neighbourhood local urban form and limited scale modifier allow for up to two dwellings on a parcel (plus secondary suites). These areas will see gradual growth of semi-detached dwellings, but also new single-detached dwellings.
- 4** Park spaces smaller than 0.4 hectares (1.0 acres) do not allow for 3 or more unit dwellings, but there may be corner parcels nearby that do.
- 5** Areas around transit stations allow for three or more unit homes on the ground level, such as rowhouses. Maps for each station can be found in section 2.5.2 of the Plan.
- 6** Streets backing onto a Main Street (such as 36 street between 19 avenue to 26 avenue) allow for 3 or more unit development.
- 7** Three or more unit homes are also allowed on corner lots. In communities like Killarney, where corner lots face the avenues, this creates streets with a consistent character of rowhouses.
- 8** Parks greater than 0.4 hectares (1.0 acres) also allow 3 or more unit homes.
